Leju Reports Third Quarter 2017 Results and Issues Notice of Annual General Meeting

BEIJING, November 28, 2017 — Leju Holdings Limited (“Leju” or the “Company”) (NYSE: LEJU), a leading online-to-offline (“O2O”) real estate services provider in China, today announced its unaudited financial results for the third quarter ended September 30, 2017.

Third Quarter 2017 Financial Highlights

- Total revenues decreased by 48% year-on-year to \$95.2 million.

First Nine Months 2017 Financial Highlights

- Total revenues decreased by 44% year-on-year to \$256.2 million.
 - Revenues from e-commerce services decreased by 53% year-on-year to \$163.6 million.
 - Revenues from online advertising services decreased by 10% year-on-year to \$80.5 million.
 - Revenues from listing services decreased by 28% year-on-year to \$12.0 million.

“In the third quarter, market conditions didn’t show significant improvement in major cities where we operate,” said Mr. Geoffrey He, Leju’s Chief Executive Officer. “Despite reduced demand for marketing activities from developers, we were encouraged to see a sequential increase in our online advertising revenue as our big-data based suite of targeted advertising products gained popularity among our developer clients.”

“During this quarter, we continued to invest in product innovation, content optimization and expanded partnerships to enhance our media influence. We also improved and integrated our platforms to provide more streamlined services for our clients. Meanwhile, in the home furnishing market, we made further progress on our contractor platform, laying a solid foundation for future growth. Looking into the fourth quarter, we will continue our efforts to streamline Leju’s cost structure to better adapt to the unfavorable market conditions, which may persist in the near term.”

¹ Leju uses in this press release the following non-GAAP financial measures: (1) income (loss) from operations, (2) net income (loss), (3) net income (loss) attributable to Leju shareholders, (4) net income (loss) attributable to Leju shareholders per basic ADS, and (5) net income (loss) attributable to Leju shareholders per diluted ADS, each of which excludes share-based compensation expense, amortization of intangible assets resulting from business acquisitions and goodwill impairment. See “About Non-GAAP Financial Measures” and “Unaudited Reconciliation of GAAP and Non-GAAP Results” below for more information about the non-GAAP financial measures included in this press release.

Third Quarter 2017 Results

Revenues from e-commerce services were \$61.8 million, a decrease of 57% from \$143.8 million for the same quarter of 2016, primarily due to decreases in both the number of discount coupons redeemed and in the average price per discount coupon.

Cost of revenues was \$21.1 million, an increase of 39% from \$15.2 million for the same quarter of 2016, primarily due to increased cost of advertising resources purchased, partially offset by decreased staffing cost of the editorial department as a result of headcount change.

Revenues from listing services were \$12.0 million, a decrease of 28% from \$16.7 million for the same period of 2016, primarily due to a decrease in secondary home sales.

Cost of revenues was \$54.4 million, an increase of 25% from \$43.5 million for the same period of 2016, primarily due to increased cost of advertising resources purchased, partially offset by decreased staffing cost of the editorial department as a result of headcount change.

2

Selling, general and administrative expenses were \$322.0 million, a decrease of 18% from \$390.4 million for the same period of 2016, primarily due to decreased marketing expenses related to the Company's e-commerce business and decreased commission expenses in line with the decrease of revenues.

As of September 30, 2017, the Company's **cash and cash equivalents** balance was \$209.0 million.

Third quarter 2017 **net cash provided by operating activities** was \$18.2 million, mainly attributable to an increase in other current liabilities of 30.5 million, and an increase in advances from customers and deferred revenue of \$8.6 million, partially offset by non-GAAP net loss of \$19.5 million. **Net cash used in investing activities** was \$6.0 million, mainly due to the payment of \$5.9 million for the acquisition of a live broadcasting APP and all of its related software copyrights, trademarks and personnel.

Business Outlook

The Company estimates that its total revenues for the fourth quarter of 2017 will be approximately \$90 million to \$100 million, which would represent a decrease of approximately 5% to 14% from \$104.9 million in the same quarter in 2016. This announcement contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "will," "expects," "anticipates," "future," "intends," "plans," "believes," "estimates," "target," "going forward," "outlook" and similar statements. Leju may also make written or oral forward-looking statements in its reports filed or furnished with the U.S. Securities and Exchange Commission, in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about Leju's beliefs and expectations, are forward-looking statements that involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained, either expressly or impliedly, in any of the forward-looking statements. Such factors include, but are not limited to, fluctuations in China's real estate market; the highly regulated nature of, and government measures affecting, the real estate and internet industries in China; Leju's ability to compete successfully against current and future competitors; its ability to continue to develop and expand its content, service offerings and features, and to develop or incorporate the technologies that support them; its limited operating history and lack of experience as a stand-alone public company, given its carve-out from E-House and prior reliance on E-House for various corporate services; its reliance on SINA and others with which it has developed, or may develop in the future, strategic partnerships; substantial revenue contribution from a limited number of real estate markets; complexities resulting from its ongoing relationships with E-House, due to E-House's principal shareholding interest in Leju; and relevant government policies and regulations relating to the corporate structure, business and industry of Leju. About Non-GAAP Financial Measures

To supplement Leju's consolidated financial results presented in accordance with United States Generally Accepted Accounting Principles ("GAAP"), Leju uses in this press release the following non-GAAP financial measures: (1) income (loss) from operations, (2) net income (loss), (3) net income (loss) attributable to Leju shareholders, (4) net income (loss) attributable to Leju shareholders per basic ADS, and (5) net income (loss) attributable to Leju shareholders per diluted ADS, each of which excludes share-based compensation expense, amortization of intangible assets resulting from business acquisitions and goodwill impairment. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. For more information on these non-GAAP financial measures, please see the table captioned "Unaudited Reconciliation of GAAP and Non-GAAP Results" set forth at the end of this press release.

Leju believes that these non-GAAP financial measures provide meaningful supplemental information to investors regarding its operating performance by excluding share-based compensation expense, amortization of intangible assets resulting from business acquisitions, and goodwill impairment which may not be indicative of Leju's operating performance. These non-GAAP financial measures also facilitate management's internal comparisons to Leju's historical performance and assist its financial and operational decision making. A limitation of using these non-GAAP financial measures is that share-based compensation expense and amortization of intangible assets resulting from business acquisitions may continue to exist in Leju's business for the foreseeable future. Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables provide more details on the reconciliation between non-GAAP financial measures and their most comparable GAAP financial measures.
