## Leju Announces Estimated Fourth Quarter and Full Year 2015 Revenues

BEIJING, January 21, 2016 — Leju Holdings Limited (“Leju” or the “Company”) (NYSE: LEJU), a leading online-to-offline (“O2O”) real estate services provider in China, today announced that it expects to report total revenues of between US\$170 million and US\$180 million for the fourth quarter 2015. Accordingly, the Company’s fiscal 2015 total revenues are estimated to be between US\$570 million and US\$580 million, which would represent an increase of approximately 15% to 17% from US\$496.0 million in 2014, as compared to the Company’s previous fiscal 2015 total revenues guidance of between US\$600 million and US\$620 million. The estimated revenue range reflects lower-than-expected coupon sales and redemptions for real estate e-commerce services for the fourth quarter.

These preliminary unaudited results are based on management’s initial review of operations for the fourth quarter 2015. The Company will report and discuss its fourth quarter and full year 2015 results in more details in March 2016.

A number of important factors could cause actual results to differ materially from those contained, either expressly or impliedly, in any of the forward-looking statements. Such factors include, but are not limited to, fluctuations in China’s real estate market; the highly regulated nature of, and government measures affecting, the real estate and internet industries in China; Leju’s ability to compete successfully against current and future competitors; its ability to continue to develop and expand its content, service offerings and features, and to develop or incorporate the technologies that support them; its limited operating history and lack of experience as a stand-alone public company, given its recent carve-out from E-House and prior reliance on E-House for various corporate services; its reliance on SINA, Baidu and others with which it has developed, or may develop in the future, strategic partnerships; substantial revenue contribution from a limited number of real estate markets; complexities resulting from its ongoing relationships with E-House, due to E-House’s controlling interest in Leju; and relevant government policies and regulations relating to the corporate structure, business and industry of Leju.
